MONTAGUE ISD WELLNESS POLICY

General Statement of Purpose:

The District shall follow Texas Education Agency nutrition guidelines that advance student health and reduce childhood obesity and shall promote the general wellness of all students through nutrition, physical education, physical activity, and other school based activities.

Development of Guidelines and Goals:

The District shall develop nutritional guidelines and wellness goals in consultation with the local school health advisory council and with involvement from representatives from the school food services, school administration, the board, parents, students, and education service center Region 9.

Nutrition Guidelines and Goals:

The District shall ensure that nutritional guidelines for reimbursable school meals shall be at least as restrictive as federal regulations and guidance and that all foods available on each campus are in accordance with the Smart Snacks program. The Nutrition standards should focus on increasing nutrient density, decreasing fat and added sugars, and moderating portion size. Schools must ensure that reimbursable school meals meet the program requirements and nutrition standards set forth under USDA and TDA regulations. The Montague ISD will offer breakfast, and lunch meals that meet the USDA/TDA standards. Students and staff are highly encouraged to promote and participate in these programs. In addition to legal requirements, the District should:

1. Monitor food and beverages available at classroom parties/celebrations and vending locations.
2. Provide teachers and staff with civil rights training regarding food service as applicable to their employment position.
3. Monitor school-sponsored fund raising activities that involve serving or selling food.
4. Monitor food and beverage options included at concessions at school-related events outside the school day.
5. Prohibit the withholding of food. For example, restricting a child's selection of flavored milk at mealtime due to misbehavior in the classroom.

Nutrition Education Guidelines and Goals:

All students shall possess the knowledge and skills necessary to make nutritious and enjoyable food choices for a lifetime. In addition, staff is encouraged to model healthy eating and physical activity as a valuable part of daily life. The Montague ISD shall develop a wellness plan to encourage healthy eating and physical activity. This plan shall make effective use of school and community resources that will help meet the needs and interests of all students and staff.

1. Students shall receive nutrition education that fosters the adoption and maintenance of healthy eating behaviors.
2. Nutrition education will be a District wide priority and will be integrated into other areas of the curriculum, as appropriate. Ex. Health class, PE Class.
3. Staff responsible for nutrition education will be adequately prepared using researched based curriculum and will participate in professional development activities to effectively deliver the program as planned.
4. The food service staff, teachers and other school personnel will coordinate the promotion of nutrition messages in the cafeteria, the classroom, and other appropriate settings.
5. Educational nutrition information will be shared with families and the general public to positively influence the health of students and community members.

Physical Activity Guidelines and Goals:

The primary goal for a school's physical activity component is to provide opportunities for every student to develop the knowledge and skill for specific physical activities, maintain physical fitness, regularly participate in physical activity and understand the short-and long-term benefits of a physically active and healthy lifestyle. A comprehensive physical activity program encompasses a variety of opportunities for students to be physically active, including: physical education, recess, walk-to-school programs, health education that includes physical activity as a main component and physical activity breaks within the regular classrooms. Montague ISD will use national or state –developed standards for physical education.

1. The District will provide an environment that fosters safe and enjoyable fitness activities for all students, including those who are not participating in competitive sports.
2. Physical education classes will regularly emphasize moderate to vigorous activity.
3. The District will encourage teachers to integrate physical activity into the academic curriculum where appropriate.
4. The District will encourage family to support their children's participation, to be active role models, and to include physical activity in family events.

School Based Activities: Wellness Goals:

1. Drinking fountains will be available for students to get water at meals and throughout the day.
2. Sufficient time will be allowed for students to eat meals in lunchroom facilities that are clean, safe and comfortable.
3. Employee wellness education and involvement will be promoted at suitable school activities.

Marketing:

The District strives to teach students how to make informed choices about nutrition, health, and physical activity. These efforts will be weakened if students are subjected to advertising on District property that contains messages inconsistent with the health information the District is imparting through nutrition education and health promotion efforts. It is the intent of the District to protect and promote student's health by permitting advertising and marketing for only those foods and beverages that are permitted to be sold on the school campus, consistent with the District's wellness policy.

Triennial Assessment:

At least once every three years, the District will evaluate compliance with the wellness police to assess the implementation of the policy and include:

- The extent to which schools under the jurisdiction of the District are in compliance with the wellness policy; and
- The extent to which the District's wellness policy compares to the Alliance for a Healthier Generation's model wellness policy; and
- A description of the progress made in attaining the goals of the District's wellness policy.

Record Retention:

Contracting Entities (CEs) are required to retain accurate program documentation. Montague ISD will retain all Wellness Policy documentation for a period of 5 years.
